Atlas O TRAINMAN® 40' ACF Single-Door Box Car West India Fruit & Steamship Co. Additional Road Numbers!

By club member demand, we are happy to offer additional road numbers for our popular West India Fruit & Steamship Co. 40' box cars.

The West India Fruit & Steamship Co. offered ferry and railcar service between the mainland of the United States and Cuba. The terminal ports were located in Palm Beach, Florida and Havana, Cuba. The company's operations lasted from 1945 through 1961 when US-Cuban relations collapsed.

The WIF&SS Co. was different than the several car-ferry forerunners it replaced, in that it was both a rail line and a steamship company. In addition to its fleet of Great Lake-style car ferries, the company owned a rather extensive group of refrigerator cars and box cars. By owning the cars, goods did not have to be transferred from the cars they were loaded on and therefore offered "The Superior All-Rail Route to Cuba" with a reduction in transit time.

Goods carried northbound included tobacco, sugar, pineapple, rum and scrap metal. Southbound loads included manufactured goods, merchandise and temperate zone fruit.

This Atlas O TRAINMAN model accurately portrays the WIF boxcars that were built by American Car & Foundry in January 1952. The two new road numbers (281 and 288) are offered in the as-delivered paint scheme of freight car red, white and black and feature the highly-recognizable steamship logo.

Features:

- True Scale dimensions and details
- Separately-applied roof walks, ladders, brake wheel and brake line details
- See-through roof walks
- Accurate painting and lettering
- Weighted, detailed underframes
- Die-cast sprung Bettendorf trucks
- Die-cast couplers
- 2-rail cars feature scale 33" wheel sets and new-design body-mounted scale couplers
- Recommended minimum diameter curve: 0-31 (3-rail)
- Recommended minimum radius curve: 24" (2-rail)
